EXPERIENCE

Internship | Web Development Intern DLK

I completed a web development internship at DLK Company, where I worked on various web-based projects.

I gained hands-on experience with HTML, CSS, JavaScript, and other web technologies.

During the internship, I developed and improved web applications, enhancing user interfaces and functionality.

I faced challenges in debugging and optimizing website performance, which improved my problem-solving skills.

This internship helped me strengthen my web development skills and gain practical industry experience.

Internship | Python Intern CodSoft

Worked on a Python project, gaining hands-on experience in programming and problem-solving.

Improved debugging skills by resolving errors and optimizing performance.

Successfully completed tasks assigned during the internship, showcasing dedication and learning ability

SKILLS

Programming Languages: Java, python

Libraries/Frameworks: Javascript

Tools / Platforms: Vscode, eclipse

Databases: SQL

PROJECTS / OPEN-SOURCE

Road accident detection using AI(Ongoing)

Designed and implemented a real-time accident detection web-based application.

The system detects road accidents and sends alert messages to nearby hospitals and neighbors.

CERTIFICATIONS

- JAVA - Udemy.
- JAVA - Nptel.
- Generative AI - Oracle.
- CyberSecurity - Nasscom.
- Artificial Intelligence - TCS.

HONORS & AWARDS

- completed a typewriting course first class with distinction
